

Room 12's SUPER SCIENTISTS

Throughout Term 1 in Room 12 we were learning all about what it means to be a "Super Scientist!"

We learnt that being a scientist means:

- We ask questions and seek answers
- We are curious about the things around us and explore our world
- We make predictions, experiment and share results
- We have a go and learn from our mistakes and successes
- We use our five senses to observe, discover and explore
- We stay safe but most importantly we have FUN

Some of our Science fun in Term 1 included:

- Colour mixing experiments
- Exploring textures
- Taste testing
- Making Lava Lamps
- Magnetic play
- Investigating materials
